

THE 2020 GREEN BOOK HAS BEEN RELEASED

Electrical Safety Rules for the
VESI Distribution Networks

As with previous versions, significant consideration has been given to maintaining alignment of terminology and methodology between both the Blue & Green Books and with national standards.

Changes in the 2020 Green Book include:

Format changes

- Interactive indexing tabs for ease of viewing on electronic devices
- Removal of photos
- Updated tables and images
- Print size increased to A4

Content change

- Updated Definitions
- Table 7 – Earthing of Mobile Plant, providing clear direction to minimum plant requirements for fieldworkers
- Persons Permitted to Sign on to Sanction for Testing section re-written for further clarification
- Minor grammatical changes

The formal launch of the 2020 Green Book will be completed by December 31 and in the interim, both 2013 and 2020 Green Book rules can be safely applied in the workplace.
